

My daughter absolutely loved attending Kindergarten with Ms. Christine at Morningstar. She was not quite ready for the size of public school and asked to have Ms. Christine for class instead. The small class size allows for more opportunities for growth, instruction and field trips that you can't accomplish in public schools. She transitioned to public school for 1st grade without any issue at all.

My son Reed attended Kindergarten at Morning Star Child Development Center approximately four years ago. He had a fantastic and memorable experience that he still recalls fondly to this day. They provided him with opportunities to explore his world and connect real experiences with academic learning, which instilled in him a lasting appreciation for school. He continues to do well and has remained ahead of the curve in core subjects such as reading and mathematics. He speaks of it so fondly that other children say they wish they had gotten to go there!

We highly recommend kindergarten at Morningstar. I have seen my child grow leaps and bounds this year. He has had the advantage of getting individualized instruction due to the small class size. His confidence and excitement around reading and math continues to grow. Miss Christine has developed a challenging and thorough program that keeps my child engaged and eager to explore. He has especially enjoyed Spanish class and the many field trips they take. Giving him an extra year at Morningstar has been the best decision we could have made.

What we appreciate most about the kindergarten program at Morningstar is the individualized approach to education. Both in academics and social/emotional development, our son has received the individual coaching he needs to grow into his best. The small class size allows for creative learning, education that is tailored to the interests and strengths of the group, team building, critical thinking, group discussion, and one-on-one time that is hard to find in larger classrooms. It has allowed the teacher to go beyond the required curriculum to plant the first seeds of a love of learning about the many facets of our world. Our son's teacher has provided feedback and perspective about our son that has helped us as parents to reinforce his learning and development at home. The kindergarten program at Morningstar encourages a partnership between parents and the teacher to help the students thrive in all areas of development and learning and to establish them for their next steps in education.

We are very pleased with the decision we made to send our son to Morning Star for Kindergarten. We felt he was more than prepared for first grade and was ahead of others in his class. Mrs. Christine was a wonderful teacher. She was always attentive and interested in our son and seemed to have an easier time motivating him to perform his schoolwork. We would highly recommend Morningstar to other parents and would be confident they would receive the excellent care that we did!

Morningstar was an absolute blessing to our family! We loved it so much we decided to enroll our son into Ms. Christine's kindergarten class. Again, another absolute blessing. The small personal class size, the amazing guidance of Ms. Christine and the interactive education was beyond our expectations! Our son is excelling in all of his classes and is even part of an Elite math group at his school. He was beyond prepared for 1st grade and we are forever grateful for our Morningstar family.

Kindergarten at Morningstar was an excellent experience for our child. She was able to receive individualized attention and focused lessons for her to excel. We enjoyed the diversity despite the small class size and the opportunity for her to learn about many different cultures firsthand was wonderful. Ms. Christine's dedication to making the classroom environment exciting and fun was greatly appreciated. Our child was eager to go to school each day, a true testament to her exceptional teacher.

Kindergarten at Morning Star is awesome! My son Jason had an incredible year and he learned so much there. Because of the small size of the class, it really felt like a family and each child receive individual attention tailored for growth. Jason grew so much academically and socially last year. He became more mature and independent - I am so proud and impressed! Ms. Christine is such a wonderful teacher, with great patience, love, and care for her students. She is super creative in teaching too – always have fun and exciting ways to help the kids to learn new things! I feel so grateful to have Jason in Ms. Christine's class.
